Claim 3. (Amended) A carrier according to claim 1, wherein said hole additionally comprises a seal applied thereto.

Claim 4. (Amended) A carrier according to claim 1 comprising a plurality of retainers in the first portion, wherein the second portion is foldable towards said plurality of retainers to form a cover therefor; and a join between said cover and the plurality of retainers.

Claim 5. (Amended) A carrier according to claim 1, additionally comprising a fold in said first portion such that the first portion is foldable towards the retainer to form a base therefor; and a join between said base and the retainer.

Claim 6. (Amended) A carrier according to claim 1, additionally comprising an inert support within the retainer for bearing product thereon.

Claim 7. (Amended) A carrier according to claim 1, comprising a second fold in the second portion to form a pull release tab.

a8
Claim 9. (Amended) A carrier according to claim 7, wherein the pull release tab has a looped end.

a9
Claim 10. (Amended) A carrier according to claim 7, wherein said pull release tab has at least one perforation therein.

Claim 11. (Amended) A carrier in multi-unit form comprising a series arrangement of a plurality of carriers according to any claim 1.

a10
Claim 15. (Amended) A carrier according to claim 1, wherein the sheet or elongate strip is flexible.

Claim 16. (Amended) A carrier according to claim 1, wherein the sheet or elongate strip comprises material selected from the group consisting of metal foil, an organic polymeric material and paper.

a11

Claim 18. (Amended) A carrier according to claim 1, wherein the join is formable by a joining method selected from the group consisting of heat, laser, radio frequency, adhesive, staple, stamp, pressure and ultrasonic sealing.

Claim 19. (Amended) A carrier according to claim 1, wherein the join is peelable to enable peelable access to the retainer.

Claim 20. (Amended) A carrier according to claim 1, wherein the retainer is shaped for receipt by a holder.

Claim 21. (Amended) A carrier according to claim 1, comprising a medicament therein.

a12

Claim 23. (Amended) A carrier according to claim 21, wherein the medicament is selected from the group consisting of albuterol, salmeterol, ipratropium bromide, fluticasone propionate and beclomethasone dipropionate and salts or solvates thereof and any mixtures thereof.

Claim 24. (Amended) An inhalation device comprising a housing in combination with a carrier as claimed in claim 21.

a13

Claim 26. (Amended) An inhalation device according to claim 24, wherein the carrier comprises a pull release tab and the pull release tab protrudes from the housing.

a14

Claim 29. (Amended) A method of making a carrier comprising forming a retainer, comprising a pocket or hole therein, in a first portion of a sheet or elongate strip; filling said retainer with product; folding a second portion of said sheet or elongate strip towards

the retainer to form a cover therefor; and forming a join between said cover and the retainer.
